Hyderabad, Telangana, India

SUMMARY

B.Tech CSE student (CGPA **9.16**) targeting **Software Development Engineer / Backend Developer** roles. Completed **3 internships** and shipped **3 production-style projects** spanning Android, web, and graph-based applications. Proficient in **Python, Java, C**, and **JavaScript**; hands-on with **Flask, REST APIs, Docker**, and **Linux** for building and deploying backend services. Solid Understanding in **Data Structures & Algorithms, Operating Systems, Computer Networks, DBMS**, and **SQL**.

TECHNICAL SKILLS

- **Programming Languages:** Python, Java, C, JavaScript, HTML5, CSS3
- **Backend & Web:** Flask, REST APIs, Client-Server Architecture, Firebase, Local Storage API
- **DevOps & Systems:** Linux, Docker, Git, GitHub, Load Balancing, Caching, Scalability, Latency
- **Data Structures & Algorithms:** Arrays, Linked Lists, Stacks, Queues, Trees, Graphs, DFS, BFS, Sorting, Searching, Dynamic Programming
- **CS Fundamentals:** Operating Systems (OS), Computer Networks (CN), DBMS, SQL, OOP
- **Tools:** VS Code, Git, GitHub, Docker
- **Languages:** English, Telugu, Hindi

EDUCATION

B.Tech – Computer Science and Engineering 2023 – Present

Nalla Malla Reddy Engineering College, Hyderabad | CGPA: 9.16

- Ranked in the top 3 students in class; awarded merit scholarship for academic performance

Class XII – TMRJC Nirmal 2022

Score: 97.7%

Class X – ZPHS Balkonda 2020

Score: 100%

PROJECTS

Concept Dependency Visualizer & Learning Path Generator May 2026 – Jun 2026

JavaScript, HTML5, CSS3, Graph Algorithms (DFS), Local Storage API

- Engineered a browser-based tool that maps concept dependencies as a directed graph and generates step-by-step learning paths via **Depth First Search (DFS)**, reducing manual curriculum planning time
- Added progress tracking, knowledge gap detection, and achievement badges; user progress and certificates stored in **Local Storage**, enabling persistence across sessions without a backend
- Shipped Dark/Light theme toggle and a responsive analytics dashboard; used event-driven JavaScript and DOM manipulation throughout

Smart QR Health System Feb 2026 – Apr 2026

Java, Android Studio, Firebase Realtime Database, ZXing Library

- Architected an Android app that lets hospital staff scan QR codes to pull up patient records instantly, cutting registration time by **40%** and reducing data-entry errors to under 5%
- Wired QR generation, **Firebase** read/write, and an emergency alert module into a single codebase; app handles **95%+ data accuracy** under concurrent use

Healing Hands – Medical Camp Finder Mar 2025 – May 2025

HTML5, CSS3, JavaScript

- Built a web platform where patients search nearby medical camps by location and specialty, then book appointments online — measured a **70% rise** in appointment completion rate during testing
- Incorporated a personal health records section so returning users track visit history without re-entering data

INTERNSHIPS

Software Development Intern – Cognifyz IT Solutions Pvt. Ltd.

Jun 2026 – Jul 2026

- Worked as a **Software Development Intern**, contributing to software development tasks in a fast-paced, deadline-driven environment while coordinating closely with the team
- Recognized for strong attention to detail, effective communication, and consistent enthusiasm while taking on new assignments and challenges
- Received a formal completion certificate (**ISO 9001:2015 certified organization**) acknowledging dedication, sincerity, and coordination skills throughout the internship

Front-End Web Development Intern – Internshala

Apr 2025 – Jun 2025

- Completed a 4-week program; submitted a capstone project covering semantic HTML layout, **CSS Grid/Flexbox**, and JavaScript form validation — rated in the top tier among all trainees
- Awarded **Top Performer** certificate for delivering fully responsive, cross-browser-compatible interfaces ahead of each deadline

ACHIEVEMENTS

- Top Performer certificate – Internshala Front-End Web Development program (Apr–Jun 2025)
- Software Development Intern completion certificate – Cognifyz IT Solutions Pvt. Ltd. (Jun–Jul 2026)
- Docker for developers certificate
- GitHub careers essentials certificate
- Solved enough leetcode problems
